SUMMARY

Computer Engineering graduate (2026) with hands-on experience in AWS cloud infrastructure, Linux system administration, Docker, and application deployment. Skilled in configuring cloud resources, deploying web applications, and troubleshooting infrastructure issues through practical projects and internship experience. Seeking an entry-level opportunity in Cloud Engineering, DevOps, or Technical Support.

SKILLS

Cloud Platform—AWS(EC2, VPC, RDS, IAM, S3, CloudWatch, Route-53, Lambda)
Operating Systems — Linux, Ubuntu, Red Hat Enterprise Linux (RHEL), Windows
Version Control — Git, GitHub, GitLab
Networking — OSI Model, TCP/IP, IPv4, Subnetting, DNS, DHCP, HTTP/HTTPS, Ports & Protocols
DevOps Tools — Docker, Kubernetes

PROFESSIONAL EXPERIENCE

Cloud Engineer Intern January 26 – Present
Cravita Technologies India Pvt. Ltd. | Pune, Maharashtra
- Managed AWS services (EC2, S3, VPC, IAM) for cloud operations.
- Configured Linux servers and deployed web applications..
- Assisted in troubleshooting cloud and web server configuration issues.

PROJECTS

AWS Cloud Application Deployment & Hosting
Technologies: AWS EC2, Linux, Security Groups, Nginx/Apache, Node.js, Python, WordPress
- Deployed static and dynamic applications (Node.js, Python, WordPress) on AWS EC2.
- Configured Linux servers, web-server dependencies, and security groups for application access.
- Performed application and server troubleshooting during deployment.

Scalable Application Deployment using AWS Auto Scaling & ALB
Technologies: AWS EC2, Auto Scaling Groups, Launch Templates, Application Load Balancer, Linux, Apache
- Configured launch templates, Auto Scaling Groups, target groups, and ALB for scalable hosting.
- Implemented path-based routing for /mobile/* and /laptop/* application paths.
- Practiced scheduled and dynamic scaling; troubleshot Apache, HTTP 403, and ALB issues.

Secure Web Application Infrastructure
Technologies: AWS EC2, Docker, Docker Compose, Nginx, HTML, MySQL, Linux
- Deployed a three-tier student registration app on AWS EC2 with web, application, and database layers.
- Containerized application components using Docker Compose for deployment and service management.
- Configured Nginx routing and integrated the registration app with backend and database services.

EDUCATION

Bachelor of Engineering (B.E.), Computer Engineering | 2026
Savitribai Phule Pune University
